

# PLANET SAVERS

**FACULTY**  
HSIE

**CHARGE**  
\$ 20

**HOURS**  
100

School developed

## Discover

- A hands-on course for students who want to be actively involved in all things environment. The class will become our school's Planet Savers Enviro Team. The team will lead environmental awareness and sustainability projects within our school community.
- Students will investigate various environmental issues and management strategies, working collaboratively to develop their inquiry, critical thinking, creativity and communication skills.

## Create

- Students will be able to develop passion projects and create their own environmental project, or work on improving environmental initiatives that already exist in our school.
- Possible interest areas include wildlife conservation, tree planting, climate cam, weather monitoring, organic gardening, worm farming, recycling, energy saving, water watch, marine debris, waste and endangered species.

## Share

- This course is all about thinking globally and acting locally. Students will help spread the message and promote awareness for our environment within our school and wider community.
- Students will participate in environmental initiatives such as Earth Hour, Climate Cam, World Environment Day, Clean Up Australia, Enviro Week and National Tree Day.

## FUTURE PATHWAY

Stage 5 Geography  
Stage 5 International Studies

## STAGE 6 SUBJECT SELECTION

Geography  
Earth and Environmental  
Science

## CAREER OPPORTUNITIES

- Environmental educator
- Geographer
- Botanist
- Teacher
