

BUILDING DREAMS

FACULTY TAS

COST \$30

Costs cover consumables provided for practical learning

HOURS 50

School developed

The Building Dreams elective is designed to help students develop practical skills in various manufacturing contexts, such as woodwork and metalwork.

Through hands-on projects, students will learn to use a range of tools and materials to bring their future projects to life. The course focuses on the creation of physical projects that aim to challenge student abilities.

By the end of the course, students will have gained valuable experience in manufacturing and design, and will have a deeper understanding of the creative process involved in building something from scratch.

FUTURE PATHWAY

Stage 5
Industrial Technology Timber & Metal

Stage 6
Preliminary & HSC Industrial Technology (Timber/Metal)
Preliminary & HSC Design and Technology

HIGHER EDUCATION

Cert III in Carpentry
Cert III in Joinery
Cert III in Cabinet Making

CAREER OPPORTUNITIES

TRADE
Building and Carpentry
