Unleash your creativity and capture the world around you with our exciting photojournalism elective for Year 8 students. In this course, you'll learn the art of storytelling through photography, develop your technical skills, and explore the power of visual communication.

Whether you're passionate about current events, nature, or human-interest stories, this elective will empower you to become a visual storyteller and make a real impact. Join us and bring your unique perspective to life through the lens!

Throughout the course, you will have the opportunity to explore a variety of tech tools to enhance your storytelling abilities. From creating compelling vlogs and designing engaging websites and magazines to producing podcasts and mastering the art of film making, you'll gain hands-on experience with a range of digital media platforms.

Additionally, you'll delve into the world of digital influence, learning how to responsibly use social media and online platforms to share your stories and connect with a global audience.

Embrace the digital age and become a versatile storyteller across multiple digital mediums!
