Do you want to extend your art making skills in a practical course?

In this course you will learn to make artworks using a range of materials and techniques in 2D, 3D and 4D forms.

You will discover a range of artistic techniques from drawing, painting, printmaking, collage, clay, sculpture, mixed media and wearables and build a body of work using traditional and contemporary forms of visual arts. This may include site-specific works, installations, video and digital media creations, as well as other ICT formats.

Class and individual projects in this course could include designing and painting murals inside and outside of school, collaborating with artists from the community and showcasing your artistic skills for authentic audiences at campus and College events.

This course is for students who want to extend their practical art-making skills with the course offering a flexible curriculum to support student interest and passion areas.
