Dance provides students with opportunities to experience and enjoy dance as an art form as they perform, compose and appreciate dance.

In an integrated study of the practices of performance, composition and appreciation, students develop both physical skill and aesthetic, artistic and cultural understandings.

The course enables students to express ideas creatively and to communicate physically, verbally and in written forms as they make, perform and analyse dances and dance forms.

Students learn about the elements of dance (space, time and dynamics) and performing dances with an awareness of safe dance practice, dance technique and performance quality.

Through dance composition, students learn to structure movement and utilise dance to express ideas, feelings and experiences.
