Stage 5 Music is a dynamic and engaging course designed for students who are passionate about music and eager to enhance their practical skills. This course offers a comprehensive exploration of musical performance, providing students with the knowledge, skills, and experience necessary to excel as musicians.

KEY FEATURES OF THIS COURSE:

Performance-Based Learning:

Central to this course is the emphasis on live performance. Students will have numerous opportunities to perform individually and in ensembles, covering a variety of genres and styles.

Instrumental Proficiency:

Students will receive instruction on their chosen instrument(s) – including but not limited to keyboards, guitar, bass guitar, drumkit and vocals. The course aims to develop technical skills, musical expression, and stage presence.

Repertoire Development:

Through studying a wide range of musical pieces, students will build a diverse repertoire. They will learn to interpret and perform works from different historical

periods, cultures, and genres, enhancing their versatility as performers. Personal Projects: Students will have the opportunity to work on an ongoing personal project. This could include learning and performing a piece of their own choosing, composition and/or musicology.

Music Theory and Aural Skills:

Complementing the performance focus, students will deepen their understanding of music theory and aural skills. This knowledge will support their ability to read music, follow chord charts, understand musical structures, and improve their improvisation and composition skills.

Collaborative Musicianship:

Students will have the opportunity to collaborate in small ensembles and learn to balance and blend their sound with others.

Performance Opportunities:

The course provides various performance opportunities, including school concerts, community events, and possibly local competitions. These experiences are designed to build students' confidence and stage experience.
